

FitBIZ pays itself back

How?

According to IBEC absenteeism is costing the Irish economy 1.5bn annually. That equates to €815 per employee. Can your business afford this?

FitBIZ costs €195 + Vat (reminder that we track absenteeism in our weekly trackers). Employees will be less inclined to take 'a day' if they are being monitored for 3.5 months.

Plus....

With FitBIZ you only pay per employee that signs up giving you 100% bang for your buck. And by being able to monitor and track progress you can see tangible results.

Energised and Healthier employees are more productive!
